PROFILE

A highly motivated and detail-oriented Computer Engineering student with a strong foundation in software development and problem-solving; passionate about backend development and building useful applications, with a quick learning mindset and eagerness to grow through hands-on experience.

EDUCATION

Dharmsinh Desai University

Bachelor of Technology in Computer Engineering

Nadiad, India

2023 – 2027

SKILLS

Languages: C, C++, Java, Python, HTML, CSS, JavaScript

Tools & Platforms: Visual Studio Code, Eclipse IDE, POSTMAN

Frameworks: Spring Boot, Hibernate, Thymeleaf, Django, Bootstrap

Databases: MySQL, SQLite

CERTIFICATION

- Awarded DU-HACK 4.0 certificate for innovation and technical excellence.
- Secured Web-a-Thon Certificate and Technova Certificate from SVNIT for web innovation and creative problem-solving.
- Earned Flipkart certificate for technical skills and impactful contribution.
- Received a participation certificate for CodeQuest, a live problem-solving contest organized by GDSC at DDU.

PROJECTS

CityBus – Booking System

03/2025 – 03/2025

Tech Stack: Java, Spring Boot, Hibernate, Thymeleaf, HTML, CSS, JavaScript

- Built a dynamic city bus reservation system with user-role-based access for admins and customers.
- Implemented custom DAO layer to manage database queries and handle user actions efficiently.
- Created an admin panel for managing buses, routes, and monitoring ticket booking.

Project Management Tool

05/2025 – 05/2025

Tech Stack: Java, Spring Boot, Hibernate, Thymeleaf, HTML, CSS, JavaScript

- Created a full-stack task management tool with project tracking and user role assignments.
- Integrated Hibernate ORM for seamless database transactions and entity relationships.
- Included features like task assignment, team roles, add team members, send invitations.
- Enabled real-time chat and alerts to support team collaboration and status updates.

Social Media Platform

05/2025 – 05/2025

Live Link: Social Media Platform

Tech Stack: Python, Django, HTML, CSS, JavaScript

- Developed a feature-rich platform with user profiles, posts, likes, and comments.
- Implemented secure login and registration using Django's built-in authentication.
- Managed user-generated content and file uploads with Django ORM and media handling.
- Deployed the project on Render for live access, testing, and feedback.

ACHIEVEMENTS

- Consistently practiced problem-solving on platforms like LeetCode, CodeChef, CodeStudio, and HackerRank, earning badges and high ratings.
- Successfully completed NPTEL's DBMS course, gaining strong knowledge in ER modeling, SQL, normalization, and transactions.
- Selected at the institute level for Smart India Hackathon 2024, contributing to an innovative tech solution as part of a collaborative team effort.
