PROFILE

A highly motivated Computer Engineering student (CPI: 8.92) with a strong foundation in backend development, full-stack web development, REST APIs, and database management. Successfully qualified GATE 2026. Skilled in Java, C++, Spring Boot, and MERN stack, with a passion for building scalable, efficient applications. Quick learner eager to contribute to software development.

EDUCATION

Dharmsinh Desai University **Nadiad, India**
Bachelor of Technology in Computer Engineering **2023 – 2027**

SKILLS

Languages: C, C++, Java, Python, HTML, CSS, JavaScript
Runtime & API Tools: Node.js, REST APIs
Tools & Platforms: GitHub**,** Visual Studio Code, Eclipse IDE, Postman
Frameworks: Spring Boot, Hibernate, Django, Bootstrap**,** Express.js, ASP.NET Core
Libraries: React.js
Databases: MongoDB**,** MySQL, SQLite

CERTIFICATION

- Earned Flipkart and Adobe Coding OA certificates for demonstrating problem-solving, algorithms, and data structure skills.
- Received DUHack 4.0 & 5.0 Hackathon certificates for successful participation.

PROJECTS

SmartInbox **GitHub repo Link: SmartInbox** **Jan 2026 – Feb 2026**

Tech Stack: MongoDB, Express.js, React.js, Node.js, Google APIs

- Built an AI-powered email management system with Gmail API integration for email categorization, summarization, and context-aware reply generation.
- Integrated Google Calendar API for automatic event extraction and scheduling.
- Automated daily email categorization and summary reports, delivered as PDFs via cron jobs.

CityBus – Booking System **GitHub repo Link: CityBus** **Mar 2025 – Mar 2025**

Tech Stack: Java, Spring Boot, Hibernate, HTML, CSS, JavaScript

- Built a dynamic city bus reservation system with role-based access for admins and customers.
- Implemented custom DAO layer to manage database queries and handle user actions efficiently.
- Created an admin panel for managing buses, routes, and monitoring ticket booking.

UrbanCare **GitHub repo Link: UrbanCare** **Sep 2025 – Sep 2025**

Tech Stack: ASP.NET Core, HTML, CSS, JavaScript

- Developed UrbanCare using ASP.NET Core 3.0 and EF Core for citizen issue reporting and tracking.
- Implemented modules for citizens and departments with issue tracking and notifications.
- Configured database and backend with EF Core migrations for secure and efficient data handling.

ACHIEVEMENTS

- Consistently solved problems on LeetCode and GeeksforGeeks, earning badges and ratings.
- Cleared Internal Round of SIH Hackathon and developed AlgoAnims, an algorithm-based website.
