PROFILE

A highly motivated Computer Engineering student (CPI: 9) with a strong foundation in backend development, full-stack web development, REST APIs, and database management. Skilled in Java, C++, Spring Boot, and MERN stack, with a passion for building scalable, efficient applications. Quick learner eager to contribute to software development.

EDUCATION

Dharmsinh Desai University

Bachelor of Technology in Computer Engineering

Nadiad, India

2023 – 2027

SKILLS

Languages: C, C++, Java, HTML, CSS, JavaScript

Runtime & API Tools: Node.js, REST APIs

Tools & Platforms: GitHub, Visual Studio Code, Eclipse IDE, Postman

Frameworks: Spring Boot, Hibernate, Bootstrap, Express.js, ASP.NET Core

Libraries: React.js

Databases: MongoDB, MySQL

CERTIFICATION

- Earned Flipkart and Adobe Coding OA certificates for demonstrating problem-solving, algorithms, and data structure skills.
- Received DUHack 4.0 & 5.0 Hackathon certificates for successful participation.

PROJECTS

[SmartInbox](#)

GitHub repo Link: [SmartInbox](#)

2026

Tech Stack: MongoDB, Express.js, React.js, Node.js, Google APIs

- Built an AI-powered email management system with Gmail API integration for email categorization, summarization, and context-aware reply generation.
- Integrated Google Calendar API to automatically identify meeting and event information from email content and seamlessly schedule corresponding calendar entries.
- Automated daily email categorization and summary reports, delivered as PDFs via cron jobs.

WorkForceIQ

GitHub repo Link: [WorkForceIQ](#)

2026

Tech Stack: Java, Spring Boot, React.js, MySQL, JPA/Hibernate, REST APIs, Groq API

- Developed a full-stack workforce management platform with secure authentication and role-based access, enabling efficient management of employees, departments, and organizational data.
- Designed and implemented employee lifecycle modules, including department assignment, promotion tracking, salary updates, and CRUD operations using Spring Boot APIs and React.js.
- Integrated AI-powered workforce analytics to generate natural language insights, summarize departmental performance, and provide data-driven recommendations from organizational records.

ACHIEVEMENTS

- Consistently solved problems on [LeetCode](#) and [GeeksforGeeks](#), earning badges and ratings.
- Cleared Internal Round of SIH Hackathon and developed AlgoAnims, an algorithm-based website.
- Successfully qualified GATE 2026 in Computer and Information Technology.
